homotypic cell-cell adhesion	hesion cell adhesion		coagulation		muscle organ development	
homotypic cell-cell adhesion				coagulation muscle muscle organ developme tissue development		skeletal muscle cle organ development tissue development
cell–cell adhesion via plasma–membrane adhesion molecules	cell-cell adhesion			negative regulation of coagulation	skeletal muscle organ development	
nlatelet activation		blood coagulation		muscle tissue development		
cell junction assembly			neg	egative regulation of response to external		protein activation cascade
